PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology student seeking an entry-level IT Support position. Knowledgeable in computer hardware and software installation, technical troubleshooting, basic networking, computer setup, and peripheral configuration. Passed the TESDA CSS NC II assessment and gained practical experience assisting with computer preparation and installation during work immersion. Eager to support users and develop further skills in IT operations.

TECHNICAL SKILLS

- **Technical Troubleshooting:** Help identify and resolve common computer hardware and software issues.
- **Hardware and Software Installation:** Install computer hardware, applications, and related software.
- **Basic Networking:** Understand basic network connections and assist with simple connectivity issues.
- **Computer Setup and Peripheral Configuration:** Prepare computers and connect peripherals for use.
- **Operating System and Driver Support:** Assist with basic operating system setup, software updates, and device driver installation.
- **Microsoft Office and Google Workspace:** Use productivity applications for documents, spreadsheets, presentations, and file management.

RELEVANT EXPERIENCE

Work Immersion | Advanced Specialty Learning Academy (ASLA)

April 8–26, 2024

- Assisted trainees during Computer Systems Servicing (CSS) NC II training.
- Helped install computer hardware and software.
- Prepared computers and peripherals for training activities.
